

MOHD SUHEL

FULL STACK AI ENGINEER

Lucknow, India | +91 9519838720 | mohdsuhel.dev@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Full stack developer with two years shipping production web and mobile applications on the MERN stack and React Native. Work spans a multi-tenant B2B bidding platform serving four marketplaces from one shared React and Node.js codebase, and an email automation engine with three drag-and-drop builders. Comfortable end to end: REST API and schema design, JWT and attribute-based access control, Redis caching, LLM-backed semantic search integration, and deployment on self-managed VPS infrastructure. Open to relocation or remote work.

TECHNICAL SKILLS

AI & Data: LLM Integration, Semantic Search, Qdrant Vector DB, Prompt Design

Frontend: React.js, Next.js, React Native, Redux Toolkit, RTK Query, Tailwind CSS

Backend: Node.js, Express.js, REST API Design, JWT Auth, Socket.io, Mongoose

Databases: MongoDB, PostgreSQL, Redis, SQL

Cloud & Tools: VPS Management, Claude Code, Claude / LLM APIs, Git, GitHub, Expo, Postman, Razorpay

EXPERIENCE

Associate Software Engineer

Jan 2026 – Present

Jamtech Technologies Pvt Ltd, Lucknow — React.js · React Native · Next.js · Node.js

- Build and maintain multi-tenant marketplace and AI learning products across React, Next.js, React Native and Node.js.
- Own frontend and API work spanning bidding and offer flows, seller and admin dashboards, and CRM integrations.
- Ship React Native features and defect fixes across quizzes, class scheduling and school management modules.

Full Stack Developer

Sept 2024 – Jan 2026

Code Crafter Web Solutions, Lucknow — React.js · Express.js · Node.js

- Built business automation and CRM platforms end to end — email automation engines, drag-and-drop builders and role-based admin systems.
- Developed sales, HR and permission modules with attribute-based access control and authentication.
- Delivered booking and diagnostics platforms covering scheduling, online payments and automated reporting.

PROJECTS

GreenBidz — B2B AI Bidding Marketplace

[Live](#)

- Build marketplace UI, bidding and offer flows, seller dashboards and admin tooling across four tenant marketplaces running on one shared React and Node.js codebase.
- Integrate the platform's LLM-backed semantic search into buyer discovery and listing flows, and sync marketplace leads into Zoho CRM.

BullCRM — Business Automation Platform

[Live](#)

- Built the email automation engine end to end, alongside three drag-and-drop builders — email templates, landing pages and visual workflows.
- Contributed to the WhatsApp automation module — message templates, broadcasts and trigger-based flows.

DSS CRM — Business CRM & Website Platform

[Live](#)

- Developed the sales and HR modules, covering lead capture and assignment, employee records and internal workflows.
- Built an attribute-based permission and authentication system governing role access across every module.

Shanya Scans — Diagnostics & Test Booking Platform

[Live](#)

- Built an online diagnostics platform covering test catalogue, slot booking, online payments and secure patient report delivery.
- Developed the role-based admin panel for tests, pricing and appointments, with automated result and status reporting.
